## **Professional Summary:**

Passionate Full Stack Developer with over 4 years of experience building scalable web and mobile applications. Expertise in modern JavaScript frameworks including React, React Native, Next.js, and Node.js. Strong background in database management with MongoDB and PostgreSQL, and experience with cloud services, DevOps tools, and third-party integrations. Proven ability to deliver high-quality solutions for US and Saudi Arabia-based companies remotely. Seeking to leverage technical skills and problem-solving abilities in a challenging development role.

## **Work Experience:**

### **Full Stack Developer**

#### **Trust Medical Transportation (TMT) | Remote (US-based Company)**

##### **November 2024 – Present**

- Mobile App Development (2024–2026): Built a complete mobile application using React Native for the platform, enabling drivers and patients to access services and real-time updates directly from their smartphones.
- Web Platform Development (2024–2026): Developed an integrated Non-Emergency Medical Transportation (NEMT) management system using Next.js (Frontend) and Node.js (Backend).
- Built an interactive UI with React.js and Material-UI, integrating Google Maps API for trip booking and real-time tracking.
- Designed RESTful APIs with Express.js and MongoDB to manage users, drivers, trips, and scheduling.
- Created an admin dashboard featuring advanced Role-Based Access Control (RBAC) with real-time trip updates via [Socket.io](#).
- Integrated Cloudinary for file uploads, Mailgun for email communications, and RingCentral for SMS, Fax, and phone system integration.
- Current Role (2026–Present): Continuing as Full Stack Developer, developing web and mobile applications using React, React Native, Node.js, TypeScript, and MongoDB.

## · Full Stack Developer (Part-time)

### Almida insure | Remote (Saudi Arabia-based Company)

#### February 2026 – Present

- Developing and maintaining a comprehensive insurance application using React and TypeScript on the frontend, and Node.js, Express, and PostgreSQL with Prisma ORM on the backend.
- Managing servers and integrating n8n workflow automation tools to automate tasks and respond to customer inquiries via WhatsApp.
- Optimizing database performance and ensuring system security and reliability.

#### **Skills:**

- Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material-UI (MUI)
- Backend: Node.js, Express.js, REST API
- Databases: MongoDB, PostgreSQL, Prisma ORM, Mongoose
- DevOps & Tools: Docker, AWS, CI/CD, Kubernetes, Git, VS Code, Cursor, GitHub Copilot, Figma, Postman, Jira
- Other Integrations: Google Maps API, [Socket.io](#), Cloudinary, Mailgun, RingCentral, n8n, JWT
- Business: Domain Name Investing, Digital Assets

- **Language Skills:**

Arabic: Mother tongue.

English: good command, both written and spoken.
